

Update on U.S. Government and Extraterrestrials.

2023-01-17 CET 15:55.

THE COVER-UP PART TWO.

The ranch owner was picked up from his ranch, and taken to the house of the owner, of the local Roswell Radio Station, KGFL, to be interviewed. A recording of the interview was made, and the station planned to broadcast it the next morning. But before it could be broadcast Brazel was taken into custody by members of the Military Police, and his exclusive interview became confiscated.

The Federal Communications Commission (reported to have been through the office of T.J. Slowie, Secretary of the Commission), warned radio station personnel that the matter involved National Security and should KGFL air any portion of the interview, or issue any information regarding it, they would lose their broadcasting license!

Sometime later Brazel showed up at KGFL Radio Station escorted by Military Officers, where he then told the "truth" about the debris found on his ranch. Brazel took back his initial story, instead claiming now, that he first found the debris in middle of June, in 1947, and NOT the morning of Saturday, July 5, in 1947, as he first told them. And that it was a simple weather balloon.

The reasons for the cover-up by the Military, came via order from United States President, who wanted to avoid panic. A good comparison for understandment would be: Think that the Soviet Union was the first to possess the atomic bomb. Something like that. And these "visitors" can not be trusted.— AMEN! And GOOD LUCK!

This is NOT a weather balloon.

And this United States Army hand is not fake.

Brazel said that he had previously found two weather observation balloons on the ranch, but that what he found this time did not in any way resemble either of these.

"I am sure what I found was not any weather observation balloon," he said. "But if I find anything else, besides a bomb, they are going to have a hard time getting me to say anything about it."

SUBJECT: OPERATION MAJESTIC-12 PRELIMINARY BRIEFING FOR
PRESIDENT-ELECT EISENHOWER.

DOCUMENT PREPARED 18 NOVEMBER, 1952.

BRIEFING OFFICER: ADM. ROSCOE H. HILLENKOETTER (MJ-1)

NOTE: This document has been prepared as a preliminary briefing only. It should be regarded as introductory to a full operations briefing intended to follow.

* * * * *

OPERATION MAJESTIC-12 is a TOP SECRET Research and Development/Intelligence operation responsible directly and only to the President of the United States. Operations of the project are carried out under control of the Majestic-12 (Majic-12) Group which was established by special classified executive order of President Truman on 24 September, 1947, upon recommendation by Dr. Vannevar Bush and Secretary James Forrestal. (See Attachment "A".) Members of the Majestic-12 Group were designated as follows:

Adm. Roscoe H. Hillenkoetter
Dr. Vannevar Bush
Secy. James V. Forrestal
Gen. Nathan F. Twining
Gen. Hoyt S. Vandenberg
Dr. Detlev Bronk
Dr. Jerome Hunsaker
Mr. Sidney W. Souers
Mr. Gordon Gray
Dr. Donald Menzel
Gen. Robert M. Montague
Dr. Lloyd V. Berkner

The death of Secretary Forrestal on 22 May, 1949, created a vacancy which remained unfilled until 01 August, 1950, upon which date Gen. Walter B. Smith was designated as permanent replacement.

On 24 June, 1947, a civilian pilot flying over the Cascade Mountains in the State of Washington observed nine flying disc-shaped aircraft traveling in formation at a high rate of speed. Although this was not the first known sighting of such objects, it was the first to gain widespread attention in the public media. Hundreds of reports of sightings of similar objects followed. Many of these came from highly credible military and civilian sources. These reports resulted in independent efforts by several different elements of the military to ascertain the nature and purpose of these objects in the interests of national defense. A number of witnesses were interviewed and there were several unsuccessful attempts to utilize aircraft in efforts to pursue reported discs in flight. Public reaction bordered on near hysteria at times.

In spite of these efforts, little of substance was learned about the objects until a local rancher reported that one had crashed in a remote region of New Mexico located approximately seventy-five miles northwest of Roswell Army Air Base (now Walker Field).

On 07 July, 1947, a secret operation was begun to assure recovery of the wreckage of this object for scientific study. During the course of this operation, aerial reconnaissance discovered that four small human-like beings had apparently ejected from the craft at some point before it exploded. These had fallen to earth about two miles east of the wreckage site. All four were dead and badly decomposed due to action by predators and exposure to the elements during the approximately one week time period which had elapsed before their discovery. A special scientific team took charge of removing these bodies for study. (See Attachment "C".) The wreckage of the craft was also removed to several different locations. (See Attachment "B".) Civilian and military witnesses in the area were debriefed, and news reporters were given the effective cover story that the object had been a misguided weather research balloon.

A covert analytical effort organized by Gen. Twining and Dr. Bush acting on the direct orders of the President, resulted in a preliminary consensus (19 September, 1947) that the disc was most likely a short range reconnaissance craft. This conclusion was based for the most part on the craft's size and the apparent lack of any identifiable provisioning. (See Attachment "D".) A similar analysis of the four dead occupants was arranged by Dr. Bronk. It was the tentative conclusion of this group (30 November, 1947) that although these creatures are human-like in appearance, the biological and evolutionary processes responsible for their development has apparently been quite different from those observed or postulated in homo-sapiens. Dr. Bronk's team has suggested the term "Extra-terrestrial Biological Entities", or "ETEs", be adopted as the standard term of reference for these creatures until such time as a more definitive designation can be agreed upon.

Since it is virtually certain that these craft do not originate in any country on earth, considerable speculation has centered around what their point of origin might be and how they get here. Mars was and remains a possibility, although some scientists, most notably Dr. Menzel, consider it more likely that we are dealing with beings from another solar system entirely.

Numerous examples of what appear to be a form of writing were found in the wreckage. Efforts to decipher these have remained largely unsuccessful. (See Attachment "E".) Equally unsuccessful have been efforts to determine the method of propulsion or the nature or method of transmission of the power source involved. Research along these lines has been complicated by the complete absence of identifiable wings, propellers, jets, or other conventional methods of propulsion and guidance, as well as a total lack of metallic wiring, vacuum tubes, or similar recognizable electronic components. (See Attachment "F".) It is assumed that the propulsion unit was completely destroyed by the explosion which caused the crash.

A need for as much additional information as possible about these craft, their performance characteristics and their purpose led to the undertaking known as U.S. Air Force Project SIGN in December, 1947. In order to preserve security, liason between SIGN and Majestic-12 was limited to two individuals within the Intelligence Division of Air Materiel Command whose role was to pass along certain types of information through channels. SIGN evolved into Project GRUDGE in December, 1948. The operation is currently being conducted under the code name BLUE BOOK, with liason maintained through the Air Force officer who is head of the project.

On 06 December, 1950, a second object, probably of similar origin, impacted the earth at high speed in the El Indio - Guerrero area of the Texas - Mexican border after following a long trajectory through the atmosphere. By the time a search team arrived, what remained of the object had been almost totally incinerated. Such material as could be recovered was transported to the A.E.C. facility at Sandia, New Mexico, for study.

Implications for the National Security are of continuing importance in that the motives and ultimate intentions of these visitors remain completely unknown. In addition, a significant upsurge in the surveillance activity of these craft beginning in May and continuing through the autumn of this year has caused considerable concern that new developments may be imminent. It is for these reasons, as well as the obvious international and technological considerations and the ultimate need to avoid a public panic at all costs, that the Majestic-12 Group remains of the unanimous opinion that imposition of the strictest security precautions should continue without interruption into the new administration. At the same time, contingency plan MJ-1949-04P/78 (Top Secret - Eyes Only) should be held in continued readiness should the need to make a public announcement present itself. (See Attachment "G".)

MEMORANDUM FOR THE SECRETARY OF DEFENSE

Dear Secretary Forrestal:

As per our recent conversation on this matter, you are hereby authorized to proceed with all due speed and caution upon your undertaking. Hereafter this matter shall be referred to only as Operation Majestic Twelve.

It continues to be my feeling that any future considerations relative to the ultimate disposition of this matter should rest solely with the Office of the President following appropriate discussions with yourself, Dr. Bush and the Director of Central Intelligence.

TOP SECRET

008

Roscoe H. Hillenkoetter

Roscoe Henry Hillenkoetter was the third director of the post-World War II United States Central Intelligence Group, the third Director of Central Intelligence, and the first director of the Central Intelligence Agency created by the National Security Act of 1947. He served

as DCG and director of the OIG and the CIA from May 1, 1947, to October 7, 1950, and after his retirement from the United States Navy was a distinguished board of governors of National Intergovernmental Committee On World Peace from 1957 to 1962. [Wikipedia](#)

Born: Roscoe Henry Hillenkoetter, Navy, 1891, Cape Girardeau, Missouri, U.S.

Died: June 19, 1987, New York City, New York, U.S.

Spouse(s): Jane Clark

Education: United States Naval Academy

President: Harry Truman

Deputy: Edwin K. Wright

Preceded by: Hoyt Vandenberg

Succeeded by: Walter B. Smith

James Forrestal

James Vincent Forrestal was the last Cabinet-level United States Secretary of the Navy and the first United States Secretary of Defense. Forrestal came from a very strict middle-class Irish Catholic family. He was a successful financier on Wall Street before becoming

Undersecretary of the Navy in 1940, shortly before the U.S. entered the Second World War. He became Secretary of the Navy in May 1942 upon the death of his superior, Frank Knox. President Franklin D. Roosevelt hoped that Forrestal, like the late Knox, was building up the Navy in 1942, after the end of the war. President Harry S. Truman appointed him the Secretary of the newly created Department of Defense. Forrestal was originally known to the Soviet Union, being captured by the NKVD in 1945, and was the first to be released. [Wikipedia](#)

Born: James Vincent Forrestal, Naval, 1892, Manhattan, New York, U.S. (now Beacon)

Died: May 22, 1959, Bethesda, Maryland, U.S.

Political party: None

Children: 2, including Michael

Education: Columbia College, University of Pennsylvania

President: Harry S. Truman

Preceded by: Position established

Succeeded by: Louis A. Johnson

Dr. Vannevar Bush.

THE MJ-12 MANUAL

Critics say the following MJ12 manual is not real because, in it, they tell about satellites, already in 1954, (or actually in 1957, when the last note or change was made in this MJ12 manual).

—Well, they had balloon satellites.

—And they were fully aware that even the moon above are a satellite.

—They write a field manual about UFO's, so of course they know what a satellite is.

—If one can fly to here from another Solar System, that one can also have satellites, above us.

—THE MANUAL IS LEGIT. IT'S REAL U.S. GOVERNMENT PROPERTY.

—They don't nail all of their alien descriptions 100% correct in this 1950's manual, though.

—Some of the text are based on qualified guesses and they had a really hard time to put this manual together at all. The Aliens didn't want it to exist.

The Soviet Union: 4 October 1957 - The first rocket-launched satellite was placed into an elliptical low Earth orbit from Baikonur Cosmodrome. Sputnik 1 circled the Earth every 96 minutes, and its simple radio signal was heard by scientists and radio operators across the world

TOP SECRET / MAJIC EYES ONLY

CHAPTER 1
OPERATION MAJESTIC—12

Section I. PROJECT PURPOSE AND GOALS

1. Scope

This document has been prepared especially for Majestic 12 units. Its purpose is to present all aspects of Majestic—12 so authorized personnel will have a better understanding of the goals of the Group, be able to more fully identify unidentified Flying Objects, Extraterrestrial Technology, and increase the efficiency of future operations.

2. General

Majestic 12 takes the subject of UFOs, Extraterrestrial Technology, and Extraterrestrial Biological Entities very seriously and considers the entire matter to be a matter of the very highest national security. For that reason, the subject has been assigned the very highest security classification. Three main points will be covered in this section:

a. The general aspects of MJ-12 to clear up any misconceptions that may have been formed.

b. The importance of the operations.

c. The need for absolute secrecy in all phases of operation.

3. Security Classification

All information relating to MJ-12 has been classified MAJIC EYES ONLY and carries a security level 2 points above that of Top Secret. The reason for this is to do with the consequences that may arise not only from the knowledge of the public should the existence of such matters become generally known, but also the danger of having such advanced technology as is being developed by the Air Force fall into the hands of unfriendly foreign powers. No information is released to the public press and the official government position is that no special group such as MJ-12 exists.

4. History of the Group

Operation Majestic—12 was established by special classified presidential order on 24 September 1947 at the recommendation of Secretary of Defense Louis V. Forrester, and Dr. Vannevar Bush, Chairman of the Joint Research and Development Board. Operations are carried out under a Top Secret Research and Development Intelligence Group directly responsible to the President of the United States. The goals of the MJ-12 Group

TOP SECRET / MAJIC EYES ONLY

are as follows

The recovery for scientific study of all materials and devices of a foreign or extraterrestrial manufacture that may become available. Such materials and devices will be recovered by any and all means deemed necessary by the Group

The recovery for scientific study of all entities and remains of entities of extraterrestrial origin which may become available through independent action by those entities or by misfortune or military action

The establishment and administration of Special Teams to accomplish the above operations

The establishment and administration of special secure facilities located at secret locations within the continental borders of the United States for the receiving, processing, analysis, and scientific study of any and all materials and entities classified as being of extraterrestrial origin by the Group or the Special Teams.

The establishment and administration of covert operations to be carried out in cooperation with Central Intelligence to effect the recovery for the United States of extraterrestrial technology and entities which may come down within the territory of or fall into the possession of foreign powers.

The establishment and maintenance of absolute top secrecy concerning all the above operations

5. Current Situation

It is considered as far as the current situation is concerned, that there are indications that these objects and their builders pose a direct threat to the security of the United States, despite the uncertainty as to their ultimate intentions. Certainly the technology possessed by these entities is far beyond anything known to modern science yet their presence seems to be benign and they seem to be avoiding contact with our forces for the present. Several dead entities have been recovered and a substantial amount of wreckage and devices from downed craft, are now under study at various locations. No attempt has been made to contact extraterrestrial entities either to contact authorities or to recover parts of the downed craft even though one of the crashes was of direct military action. The greatest threat at this time is the acquisition and study of such advanced technology by foreign powers and to the United States. It is for this reason that the recovery of this type of material by the United States has been given a high priority

1. The first step is to identify the problem or question that needs to be answered. This involves understanding the context and the specific requirements of the task.

TOP SECRET / MAJIC EYES ONLY

9. Description of Craft

Documented extraterrestrial craft (UFOs) are classified in one of four categories based on general shape, as follows.

1. Discs or Saucers The most common type of extraterrestrial craft is the disc or saucer. These have the appearance of a flat, circular object, often with a central dome or hub. They are usually described as being white or silver in color, and are often seen in groups. They are often described as being "saucer-shaped" or "disc-shaped". They are often described as being "flying saucers" or "flying discs". They are often described as being "flying saucers" or "flying discs". They are often described as being "flying saucers" or "flying discs".

When fully extended this landing gear supports the main body of the craft in a horizontal position. A retractable landing gear is often used to support the craft in a vertical position.

2. Spheres Spherical objects of various sizes are often reported. They are often described as being "balls" or "spheres". They are often described as being "flying balls" or "flying spheres". They are often described as being "flying balls" or "flying spheres". They are often described as being "flying balls" or "flying spheres". They are often described as being "flying balls" or "flying spheres". They are often described as being "flying balls" or "flying spheres".

3. Cones Conical objects are often reported. They are often described as being "cones" or "cylinders". They are often described as being "flying cones" or "flying cylinders". They are often described as being "flying cones" or "flying cylinders". They are often described as being "flying cones" or "flying cylinders". They are often described as being "flying cones" or "flying cylinders". They are often described as being "flying cones" or "flying cylinders".

4. Other Shapes Other shapes are often reported. They are often described as being "other shapes" or "other shapes". They are often described as being "flying other shapes" or "flying other shapes". They are often described as being "flying other shapes" or "flying other shapes". They are often described as being "flying other shapes" or "flying other shapes". They are often described as being "flying other shapes" or "flying other shapes".

TOP SECRET / MAJIC EYES ONLY

10 Description of Extraterrestrial Biological Entities (EBEs)

Examination of remains recovered from wreckage of UFOs indicates that extraterrestrial Biological Entities may be classified into two distinct categories as follows:

BE Type I These entities are humanoid and might be mistaken for beings of the Oriental race if seen from a distance. They are bi-racial. 5-5 feet 4 inches in height and weigh 80-100 pounds. Proportionally they are similar to humans, although the cranium is somewhat larger and wider. The skin is a pale ruddy yellow in color, thin and slightly wrinkled in appearance. The eyes are small, wide-set, almond-shaped, with brownish black irises with very large pupils. The whites of the eyes are not white but have a pale gray cast. The ears are small and set on the skull. The nose is thin and long, and the mouth is wider than in humans, and nearly lipless. There is no apparent facial hair and very little body hair. The hair is very fine and confined to the underarm and the groin areas. The skin is thin and without apparent body fat, but the muscles are well defined. The hands are small with four long digits but no opposable thumb. The outside digit is jointed in a manner as to be nearly opposable, but there is no webbing between the fingers as in humans. The legs are slightly but noticeably bowed, and the feet are somewhat splayed and proportionally large.

BE Type II These entities are humanoid but differ from Type I in several respects. They are 4 feet 10 inches to 5 feet 7 inches in height and weigh 25-50 pounds. Proportionally, the head is much larger than Type I EBEs, the cranium being much larger and elongated. The skull is large, rounded and nearly wrap around the side of the skull. The nose is wide and flat. There is no noticeable brow ridge and the skull has a slight peak that runs over the crown. The nose consists of a small bridge and a wide, flat, fleshy mouth. There are no lips. The skin is a pale bluish gray color, being somewhat darker on the face and neck and is very smooth and hairless. There is no body hair on the body and there are no visible scars or marks on the body. The arms are long and thin, in proportion to the legs and the hands are small with four long digits and a thumb which is nearly as long as the second finger is thicker than the others, but not as long as the thumb. The feet are small and narrow, and four toes are joined together with a membrane.

It is further noted that these two types of creatures originated but it is not known whether they did not evolve on earth. It is further noted that they may have originated on two different planets.

FEB 1945

TOP SECRET - MAJIC EYES ONLY

11 Description of Extraterrestrial Technology

The following information is from preliminary analysis reports of wreckage recovered from crash sites of extraterrestrial craft 1947-1953, excerpts are quoted verbatim to provide guidance as to the type and characteristics of material that might be encountered in future recovery operations.

Initial analysis of the debris from the crash site seems to indicate that the wreckage is that of an extraterrestrial craft which exploded from within a few feet of contact with the ground with great force, completely destroying the craft. The volume of matter indicates that the craft was approximately the size of a medium aircraft, although the weight of the debris indicates that the craft was extremely light for its size.

Metallurgical analysis of the bulk of the debris recovered indicates that the samples are not composed of any materials currently known to Terra-
SECRET

The material tested possesses great strength and resistance to heat in proportion to its weight and size, being stronger by far than any materials known in military or civilian aircraft at present.

Much of the material, having the appearance of aluminum foil or aluminum magnesium sheeting, displays none of the characteristics of either metal resembling, instead some kind of unknown plastic-like material.

Solid structures and substantial beams having a distinct similarity in appearance to very dense grain free wood, was very light in weight and possessed tensile and compression strength not obtainable by any means known to modern industry.

None of the material tested displayed measurable magnetic characteristics or residual radiation.

Several samples were engraved or embossed with marks and patterns. These patterns were not readily identifiable and attempts to decipher their meaning has been largely unsuccessful.

Examination of several apparent mechanical devices, gears, etc. revealed little or nothing of their functions or methods of manufacture.

TOP SECRET / MAJIC EYES ONLY

CHAPTER 3 RECOVERY OPERATIONS

Section I. SECURITY

12. Press Blackout

Great care must be taken to preserve the security of any location where extraterrestrial technology might be retrievable for scientific study. Measures must be taken to protect and preserve any material or information from discovery, examination, or removal by civilian agencies or individuals of the general public. It is therefore recommended that a total press blackout be initiated whenever possible. If this course of action should not be feasible, the following cover stories are suggested for release to the press.

The officer in charge will act quickly to select the cover story that fits the situation. It should be remembered when selecting a cover story that official policy regarding UFOs is that they do not exist.

a. Official Denial. The most desirable response would be that nothing unusual has occurred. By stating that the government has no knowledge of the event, further investigation by the public press may be forestalled.

b. Witnesses. If at all possible, witnesses will be held incommunicado. The extent of their knowledge and involvement can be determined. Witnesses will be discouraged from talking about what they have seen. If information may be necessary to ensure their cooperation. If witnesses have already contacted the press, it will be necessary to discredit their stories. This can best be done by the assertion that they have either seen natural events, are the victims of hysteria or hallucinations, or are the perpetrators of hoaxes.

c. Denial Statements. It may become necessary to issue false statements to preserve the security of the site. Meteors, downed satellites, downed balloons, and military aircraft are all acceptable alternatives. In the case of the downed military aircraft statement care should be taken not to suggest that the aircraft might be experimental or secret. The release of more curiosity of both the American and the foreign press. Statements issued concerning contamination of the area due to toxic chemicals or railroad tankers can also serve to keep unauthorized or undesirable personnel away from the area.

13. Secure the Area

The area must be secured as rapidly as possible to keep unauthorized personnel from infiltrating the site. The officer in charge will set up a perimeter and establish a command post inside the perimeter. Personnel allowed

Section II TECHNOLOGY RECOVERY

1. Removal and Transport

As soon as communication is established, removal and transport of all
material will commence under orders from Md- 12

a. Documentation If the situation permits, care should be taken to docu-
ment the area with photographs before anything is moved. The area will be
checked for radiation and other toxic agents. If the area cannot be kept
secure for an extended period of time, all material must be packed and
transported as quickly as possible to the nearest secure military facility.
This will be accomplished by covered transport using little-traveled roads
wherever possible.

b. Complete or Functional Craft Craft are to be approached with extreme
caution if they appear functional, as serious injury may result from exposure

MD- 12 GROUP

9

TOP SECRET / MAJIC EYES ONLY

REPRODUCTION IN ANY FORM IS PROHIBITED BY FEDERAL LAW

TOP SECRET MAJIC EYES ONLY

and retrieval discharges. If the craft is functioning, but cannot be started, it may be approached only by specially trained personnel wearing protective clothing. Any device that cannot be started should also be left to MJ-12 RFD TVAL disposal and parts of crafts too large to be transported by covered vehicles should be dismantled if this can be accomplished easily and safely. If it must be transported whole or on open flatbed trailers, they should be covered in such a manner as to camouflage their shape.

Extraterrestrial Biological Entities (EBEs) EBEs must be removed to a top secret area as quickly as possible. Great care should be taken to prevent contamination by alien biological agents. Dead EBEs should be disposed of at the earliest opportunity to preserve tissues. Should live EBEs be recovered, they should be taken into custody and removed to a secure facility by ambulance. Every effort should be taken to ensure the survival of EBEs. Personnel involvement with EBEs alive or dead must be kept to an absolute minimum. (See Chapter 5 for more detailed information regarding EBEs.)

Cleansing the Area

Once all material has been removed from the secured site, the immediate area will be thoroughly inspected to make sure that all traces of Extraterrestrial Technology have been removed. In the case of a crash, the surrounding area will be thoroughly gone over several times to ensure that nothing has been overlooked. The search area involved may vary according to circumstances at the discretion of the officer in charge. When the officer in charge is satisfied that no further evidence of the event remains at the site, it may be evacuated.

Special or Unusual Conditions

The possibility exists that extraterrestrial craft may land or crash in heavily populated areas, where security cannot be maintained or where large segments of the population and the public press may witness these events. Contingency Plan MJ-1949-04P 78 (TOP SECRET EYES ONLY) should be read in readiness should the need to make a public disclosure become necessary.

CHAPTER 4
RECEIVING AND HANDLING

Section I HANDLING UPON RECEIPT OF MATERIAL

Unloading, Unpacking, and Checking

Fig. 4

The unloading, unpacking, and checking procedure for containers marked TOP SECRET / MAJIC EYES ONLY will be carried out by personnel with MAJIC clearance. Material marked in this manner will be placed in storage in a top security area as soon as an authorized personnel are available for these procedures.

Be very careful when unloading and unpacking the material. Avoid forcing into the interior of the shipping container. Do not damage packaging materials any more than is absolutely necessary to remove contents. These materials may be required for future packaging. Show extreme care in handling and unpacking the specimens. Follow the procedure given in (1) through (11) below:

1. Unpack the specimens in a top security area to prevent access of unauthorized personnel.
 2. Cut the metal wires with a suitable cutting tool, or twist them with pliers until the straps crystallize and break.
 3. Remove wires from the top of the shipping container with a wire cutter.
 4. Cut the tape and seals of the inner liner so that the waterproof paper will be damaged as little as possible.
 5. Lift out the packaged specimens from the wooden case.
 6. Cut the tape which seals the top flaps of the outer carton, be careful not to damage the cartons.
 7. Cut the barrier along the top heat sealed seam and carefully remove the inner carton.
 8. Remove the sealed manila envelope from the top of the inner carton.
 9. Open the inner carton and remove the fiberglass inserts, desiccant, and humidity indicator.
 10. Lift out the heat sealed packaging containing the specimens and arrange them in an orderly manner for inspection.
 11. Place all packaging material in the shipping container for use in future repackaging.
6. Thoroughly check all items against the shipping documents. Carefully

TOP SECRET MAJIC EYES ONLY
FORN DISSEM BY FEDERAL LAW

SECRET MAJIC EYES ONLY

TOP SECRET / MAJIC EYES ONLY
CHAPTER 5
EXTRATERRESTRIAL BIOLOGICAL ENTITIES

Section I. LIVING ORGANISMS

1. Scope

This section deals with encounters with living Extraterrestrial Biological Entities (EBEs). Such encounters fall under the jurisdiction of MJ-12 OPNAC RRS-01 and will be dealt with by this special unit only. This section details the responsibilities of persons or units making the initial contact.

2. General

Any encounter with entities known to be of extraterrestrial origin is to be considered to be a matter of national security and therefore classified TOP SECRET. Under no circumstance is the general public or the public press to learn of the existence of these entities. The official government policy is that such creatures do not exist, and that no agency of the federal government is now engaged in any study of extraterrestrials or their artifacts. Any deviation from this stated policy is absolutely forbidden.

3. Encounters

Encounters with EBEs may be classified according to one of the following categories:

a. Encounters initiated by EBEs. Possible contact may take place as a result of overtures by the entities themselves. In these instances it is anticipated that encounters will take place at military installations or other secure locations selected by mutual agreement. Such meetings would have the advantage of being limited to personnel with appropriate clearance, away from public scrutiny. Although it is not considered very probable, there also exists the possibility that EBEs may land in public places without prior notice. In this case the OPNAC Team will formulate cover stories for the press and prepare briefings for the President and the Chiefs of Staff.

b. Encounters as the result of downed craft. Contact with survivors of accidents or craft downed by natural events or military action may occur with little or no warning. In these cases, it is important that the initial contact be limited to military personnel to preserve security. Civilian witnesses in the area will be detained and debriefed by MJ-12. Contact with EBEs by military personnel not having MJ-12 or OPNAC clearance is to be strictly limited to action necessary to ensure the availability of the EBEs for study by the OPNAC Team.

TOP SECRET / MAJIC EYES ONLY

Isolation and Custody

4. EBEs will be detained by whatever means are necessary and removed to a secure location as soon as possible. Precautions will be taken by personnel remaining in contact with EBEs to minimize the risk of disease as a result of contamination by unknown organisms. If the entities are wearing space suits or breathing apparatus of some kind, care should be exercised to prevent damage to these devices. While all efforts should be taken to ensure the well-being of the EBEs, they must be isolated from any contact with authorized personnel. While it is not clear what provisions of amenities might be required by non human entities, they should be provided if possible. The officer in charge of the operation will make these determinations, in accordance with guidelines now exist to cover this area.

Injured or wounded entities will be treated by medical personnel assigned to the OPNAC Team. If the team medical personnel are not immediately available, First Aid will be administered by Medical Corps personnel at the initial site. Since little is known about EBE biological functions, and the extent of the stopping of bleeding, bandaging of wounds and splinting of broken limbs. No medications of any kind are to be administered as the effects of terrestrial medications on non-human biological systems are impossible to predict. As soon as the injuries are considered stabilized, the entity will be moved by closed ambulance or other suitable conveyance to a secure location.

In dealing with any living Extraterrestrial Biological Entity security is paramount importance. All other considerations are secondary. Although it is preferable to maintain the physical well being of any entity, the loss of life is considered acceptable if conditions or delays to preserve that life in any way compromises the security of the operations.

Once the OPNAC Team has taken custody of the EBEs, their care and transportation to designated facilities becomes the responsibility of OPNAC personnel. Every cooperation will be extended to the team in carrying out their duties. OPNAC Team personnel will be given TOP PRIORITY at all times regardless of their apparent rank or status. No person has the authority to interfere with the OPNAC Team in the performance of its duties by special direction of the President of the United States.

Section II. NON-LIVING ORGANISMS

Scope.

Ideally, retrieval for scientific study of cadavers and other biological remains will be carried out by medical personnel familiar with this type of procedure. Because of security considerations, such collection may need to be done by non-medical personnel. This section will provide guidance for retrieval, preservation and removal of cadavers and remains in the field.

12 40 100

TOP SECRET / MAJIC EYES ONLY

TOP SECRET MAJIC EYES ONLY

Retrieval and Preservation.

The degree of decomposition of organic remains will vary depending on the length of time the remains have been lying in the open unprotected and may be accelerated by both local weather conditions and action by insects. Therefore, biological specimens will be removed from the crash site as quickly as possible to preserve the remains in as good a condition as possible. A photographic record will be made of all remains before they are removed from the site.

Personnel involved in this type of operation will take all reasonable precautions to minimize physical contact with the cadavers or remains being recovered. Rubber gloves should be worn or if they are not available, wool gloves may be worn provided they are collected for decontamination immediately after use. Shovels and entrenching tools may be employed on remains provided caution is exercised to be certain no damage is done to the remains. Remains will be touched with bare hands only if no other means of moving them can be found. All personnel and equipment involved in recovery operations will undergo decontamination procedures after those operations are have been completed.

Remains will be preserved against further decomposition as equipment permits. Cadavers and remains will be bagged or securely wrapped in waterproof coverings. Tarpaulins or foul weather gear may be used for this purpose if necessary. Remains will be refrigerated or packed in dry ice if available. All remains will be tagged or labeled and the time and date recorded. Wrapped remains will be placed on stretchers or in sealed containers for immediate removal to a secure facility. Detached pieces and material scraped from solid surfaces will be placed in small capped containers if available. Containers will be marked as to their contents and the time and date recorded. Containers will be refrigerated or packed with ice as soon as possible and removed to a secure facility.

CHAPTER 6
GUIDE TO UFO IDENTIFICATION

Section 1. UFO GUIDE

1. How to do up investigations

1. Details of how to do up investigations when a sighting is reported of a possible alien aircraft with a well known photograph or a known characteristic or unusual phenomenon. The report should immediately be given to the nearest and most reliable observer together with a request for a report of greater detail than the report now being given. This when circumstances attending the report are considered extraordinary. Special attention should be given to reports which are so a "fix" on the position and to those reports involving unusual

Rules of Thumb

1. All cases should be judged individually but there are a number of "rules of thumb" under each of the following headings which should govern in determining the necessity for follow up investigations.
Duration of Sighting When the duration of a sighting is less than 1 minute, the probability is great that it is not worth following up. As a precaution however should a large number of independent observers witness an unusual sighting of a few seconds duration it should not be discarded.

Number of Persons Reporting the Sighting Report the alien sightings by individuals are seldom worthy of follow up. Two or three competent independent observations carry the weight of 10 or more simultaneous individual observations. As an example 20 people at one spot may observe a light in the sky. This, however, has less weight than two reliable people observing the same light from different locations. In the latter case a follow up is indicated.

Distance from Location of Sighting to Nearest Unit Reports which meet the preliminary criteria stated above should as far as possible be investigated as to their occurrence in the immediate operating vicinity of the squadron concerned. For reports involving greater distances follow up necessity might be judged as being inversely proportional to the square of the distance concerned. For example, an occurrence 100 miles away might be considered

ALIEN INSCRIPTION: HAVE THE ROSWELL UFO DEBRIS SYMBOLS BEEN DECIPHERED?

May 2018

The late Dr. Jesse Marcel Jr., MD was witness to some of the Roswell UFO crash debris as a youngster. His father, Major Jesse Marcel, was stationed at Roswell Army Air Field in July of 1947 when directed to investigate a large field of strange, strewn material, fallen from the sky to the desert floor, on a ranch north of town. It was so interesting that he absconded with a bit of the material and brought it home for his family to see. Skeptics often miss this simple, important detail. If the debris were so "mundane" (like balsa sticks and balloons) as they contend, then why would Marcel essentially steal material evidence that he was directed to investigate, taking some of it back to his 12 year old son Jesse Jr. and wife Viaud, so that they too could see how unusual it was?

Dr. Jesse Marcel Jr.

Jesse Marcel Jr. was a noted ear, nose and throat doctor, and was at one time a military flight surgeon. In 1989, Dr. Marcel drew the symbols just as he so vividly remembered them, the "hieroglyphic" figures found on some of the debris. The figures were embossed on an 18 inch fragment of a metal-like "I-beam" structure. The symbols were of a violet-purplish metallic hue and were about ¼ to ½ inch tall. When Marcel Jr. showed his drawing of what he remembered the debris symbols looked like to his mother, she concurred that they were her recollection as well. **No unique was the material and the circumstances on it, that Marcel Jr. was able to recall and recreate them decades later.**

WHAT THE SYMBOLS SAY:

THEY COMMUNICATE TECHNICAL INFORMATION Or origin of Spacecraft.

One man said the symbols meant No Smoking When Light Is Lit.

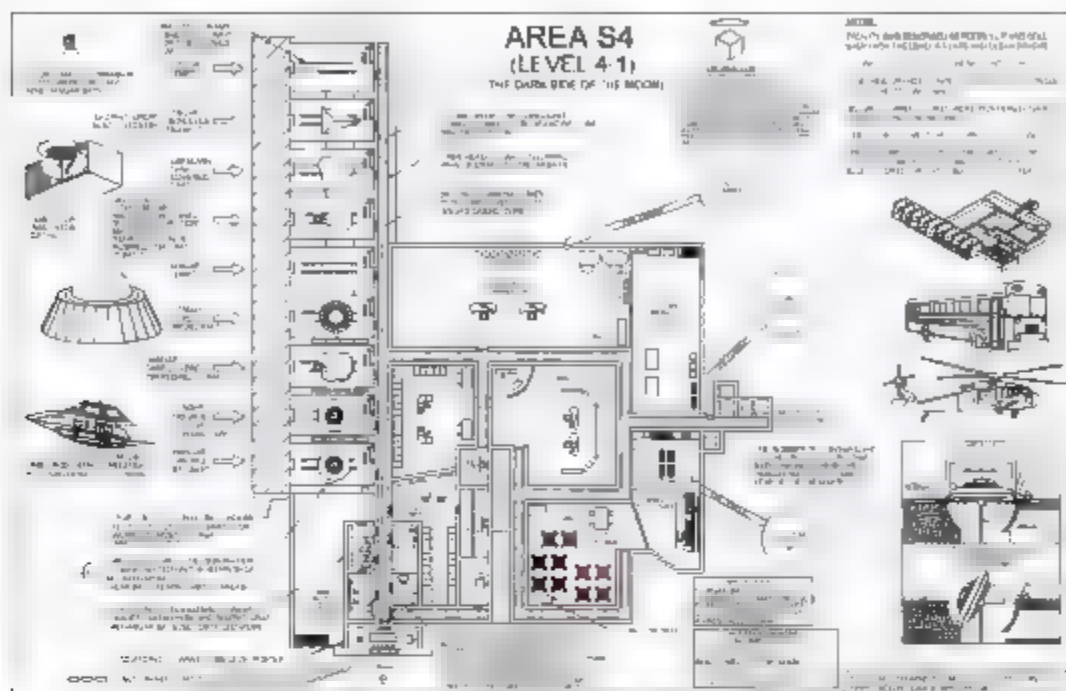

THE UNITED STATES S-4 FACILITY.

AREA S-4 SUB FLOOR LAYOUT

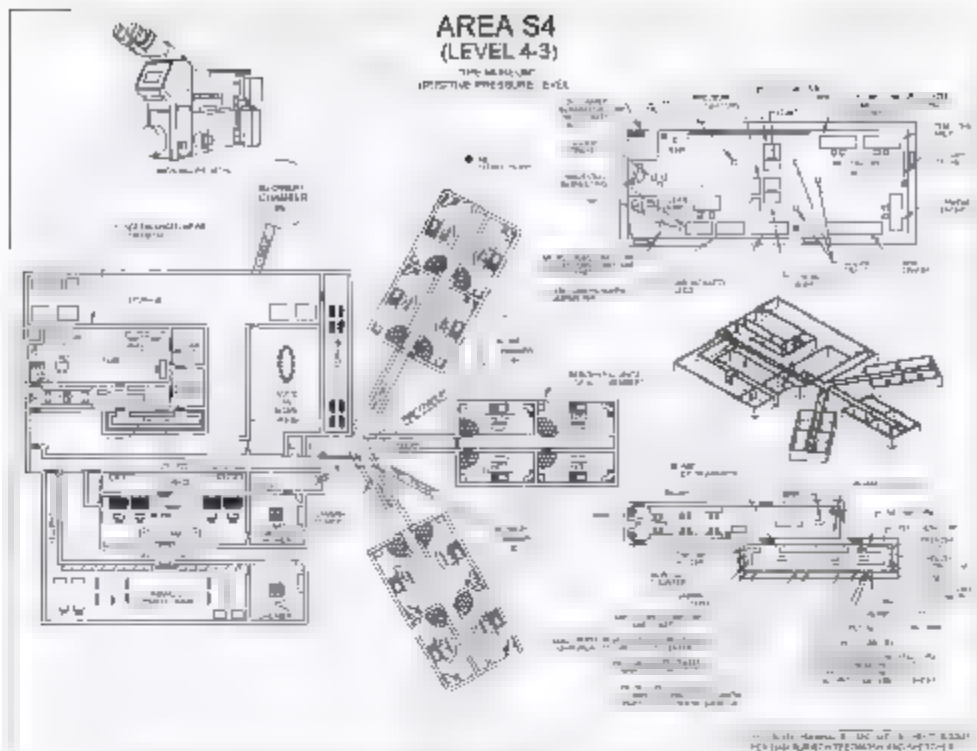

Exploded view of Area S-4 showing levels 1-5 as described by Drs. Dan Burisch and Marcia McDowell. The facility was originally designed as a biological weapons laboratory in the early 1950s. After arriving at Area 51, Dan would either be driven by a bus or flown by helicopter to Area S-4.

Level 1 housed fire control equipment, a dining facility, communications, security/surveillance, an avionics laboratory and the archives or files department. Provisions for a propulsion research laboratory are also housed on the first floor of Area S-4. The dining area seats consisted of round tables with four attached round seats. The cafeteria seating arrangement was broken down specific projects which included Project Galileo, weapons research, Project Looking Glass, and Project Aquarius (see level 4-1 floor layout drawing). Note: special members of MJ 12 had their own designated table in the cafeteria. The interior of all nine hangar bays included a red circle which contained the designation 4-1 in red text.

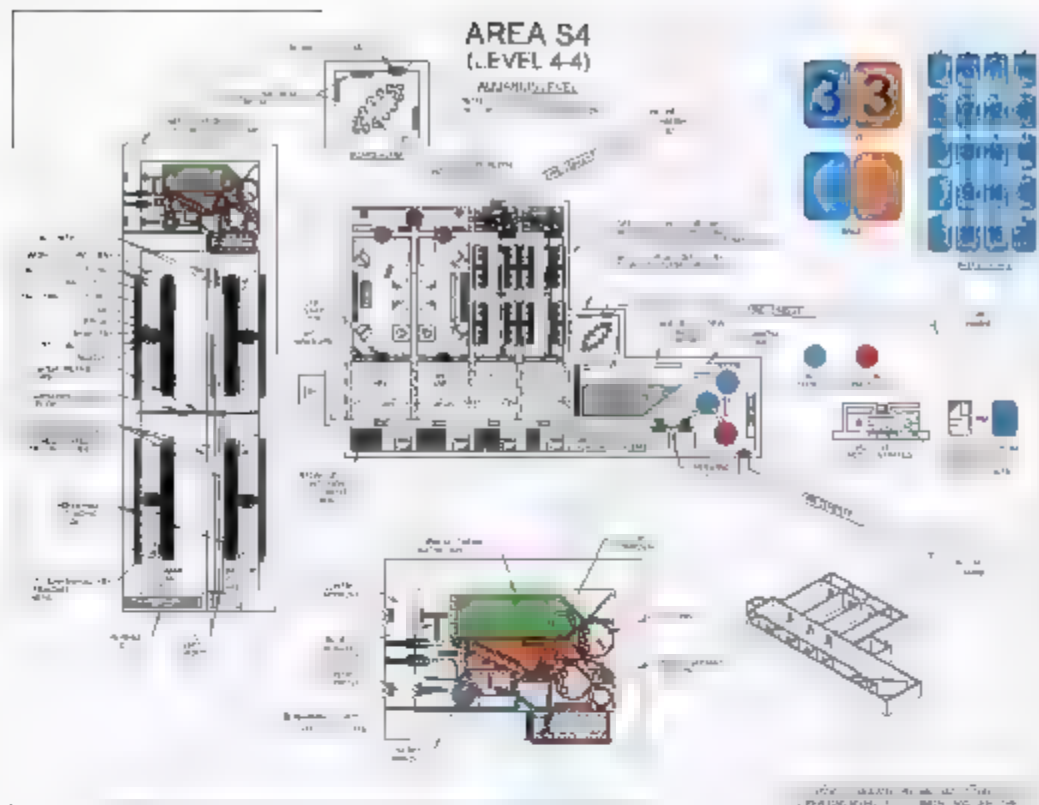

Level 2 or "4-2" was known as "Alice's Floor". This specific floor contained a laboratory for weapons research and development, three board rooms, and provisions for emergency supplies. Also located in level 4-2 were two specific areas which contained components for Project Sidekick. Level 4-2 was also the location of Project Looking Glass. This device utilized six composite, electromagnetic fields, and a height adjustable rotating cylinder which is injected with a specific type of gas. The entire assembly can be rotated 90 degrees from the horizontal axis. This allows scientists to warp the local fabric of space-time both forward or backwards by long or short distances relative to the present time. The Project Looking Glass device was used to predict the potential probability of future events. Once the device is tuned properly, images of probable future events are projected in open space within the fields, similar to a hologram. The data output of the device (images and in some cases sounds) were then captured via high resolution audio-video capture devices. If multiple probabilities of the same event were displayed, they could be de-interlaced by use of specific software platforms. Next to the Project Looking Glass device were two "transport pads" which could teleport physical matter or humans from one location to the other instantly, but not always reliably and with certain disastrous outcomes during testing phases. Dan had the unfortunate experience of being in the room during one of those unfortunate outcomes, and witnessed a death.

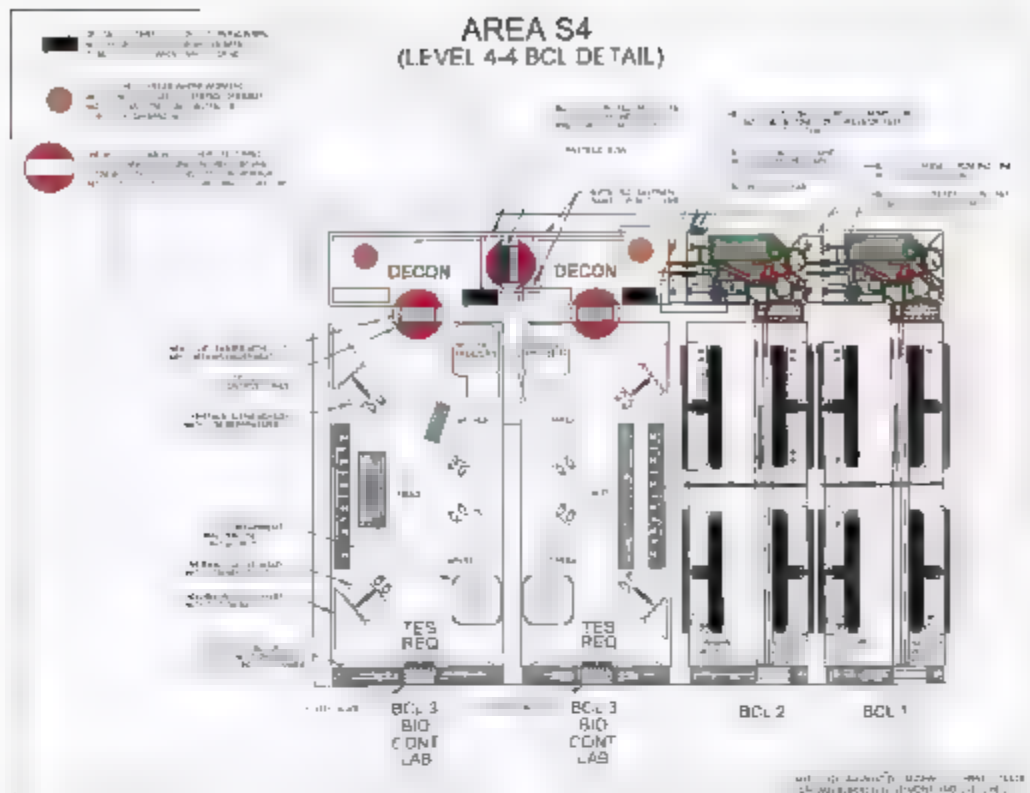

Level 3 of Area S-4 contained the residential living quarters for members of Majestic 12. Dan and I are only willing to say the following, and only that information may be represented as coming from us. The former Leader of the Consistory of the Majestic was accurately identified by Dr. Dan in an affidavit sworn under penalty of perjury. That former leader was a high ranking official in

- a. The United States Navy
- b) The National Security Agency (NSA)
- c) The director of National Intelligence's Office

That former leader is properly identified by the name "J. McConnell". The residential portion of this level consisted of 12 apartment-like rooms, complete with a sunken living area, television and rest room. Level 3 also contained decontamination wash stations, along with a storage facility. Additionally, level 3 contained a board room, and provisions for a fully equipped biological laboratory consisting of tissue and cell culture analysis areas, and dissection facilities.

Level 4 aka the "Aquarius Level" contained five decontamination areas along with multiple laboratories and equipment rooms. Level 4 also includes the only access elevator to Level 5. While working at Area S4, Dan's security badge number was H-6 96MAJ. Dr. Marcia's Majestic badge number was Q-3 92MAJ. According to Dr. Dan Burisch, his boss at Area S-4 reported to the Majestic 12, who in turn reported to a cover committee who reported to the Committee of the Majority. The cover committee's job was to condense and sometimes prevent reports from reaching the committee of the Majority. The Committee of the Majority was an internationalized version of the group called "The Majestic" which had been started in 1947 by President Harry S. Truman following the Roswell crash. The Majestic 12 were organized after the Roswell crash, not because of extraterrestrial contact, but could have been handled with the existing infrastructure of the U.S. military, while it was being reorganized following World War II.

Army Disk-ounts New Mexico Find As Weather Gear

FORT WORTH, July 9.—(AP)—An examination by the Army revealed last night that a mysterious object found on a lonely New Mexico ranch was a harmless high-altitude weather balloon—not a grounded flying disk.

Excitement was high in disk-conscious Texas until Brig Gen. Roger M. Ramey, commander of the Eight Air Forces with headquarters here cleared up the mystery.

The bundle of tinfoil, broken wood beams and rubber remnants of a balloon was sent here yesterday by army air transport in the wake of reports that it was a flying disk.

But the general said the objects were the crushed remains of a Ray wind target used to determine the direction and velocity of winds at high altitudes.

Patent Number: 4,877,027

Date of Patent: Oct. 31, 1989.

The transmission of intelligible speech by audio modulated Microwave is described in the book *Microwave Auditory Effects and Applications* by James C. Lin 1978 publisher Charles C. Thomas.

BRIEF SUMMARY OF THE INVENTION

I have discovered that a pulsed signal on a radio frequency carrier of about 1,000 megahertz (1000 MHz) is effective in creating intelligible signals inside the head of a person if this electromagnetic (EM) energy is projected through the air to the head of the person. Intelligible signals are applied to the carrier by microphone or other audio source and I cause the bursts to be frequency modulated. The bursts are composed of a group of pulses. The pulses are carefully selected for peak strength and pulse width. Various objects, advantages and features of the invention will be apparent in the specification and claims.

FY 2018 Program Acquisition Costs by Weapon System

Evolved Expendable Launch Vehicle

USAF

The Evolved Expendable Launch Vehicle (EELV) provides to the Air Force, Navy, and the National Reconnaissance Office (NRO), and other government and commercial purchasers of launch services medium to heavy lift class satellites.

- 70 consecutive successful national security space (NSS) operational launches (as of March 19, 2017).
- The Air Force certified SpaceX as an EELV provider on May 19, 2015.

Mission: Provides launch services and capability for medium to heavy class national security space satellites.

FY 2018 Program: Procures three Air Force launch services. All three are planned for competition and which are usually ordered no-later-than 24 months prior to the planned mission unless additional first time integration is needed; funds EELV Launch Capability (ELC) effort including mission assurance, program management, systems engineering, integration of the space vehicle with the launch vehicle, launch site and range operations, and launch infrastructure maintenance and sustainment. Continues EELV launch service investment to provide two commercially-viable, domestically-sourced space launch service providers with the objective of eliminating reliance on a foreign-made liquid rocket engine.

Prime Contractors: United Launch Alliance (ULA); Centennial, CO
SpaceX; Hawthorne, CA

What we mean with the "spaghetti controls" see this image.
This is the best image you can get on the problem To date For us on Earth™

The invention describes a target system that activates a SAT High Energy Laser at the target.
Embry, AnnMarie Oien, Duane D. Smith, J. Alex Thomson, James Pete Tucker & Samel G. L. Williams – Assignee, Lockheed Martin Corp. & Lockheed Martin Coherent Tech Inc. An imaging method and associated system for producing high-resolution images. The method includes illuminating an object or scene with coherent radiation such as beams from a laser and then, collecting scattered light with a plurality of subapertures rather than a single large aperture. The method continues with coherently detecting, such as with heterodyne detection, the scattered light to measure the complex amplitude incident on each subaperture and digitally reconstructing images from the coherently detected light for the subapertures. Then digital co-phasing is performed on the subapertures using an image sharpness or quality metric to form an image having the resolution of the total subaperture area. The method may also include determining an aimpoint in the formed image, calculating a phase screen, directing laser beams through the subapertures towards the aimpoint, and co-phasing the laser beams by applying the phase screen to form a single beam.

Recommended actions:
Good filtered ventilation and cleaning with chlorine.
Eat central stimulants (raises your available brain energy)

It can be found everywhere in the Earth's atmosphere You are born in it. And it is the cause of half of all the medical problems

How can you place something "on the other side" ?

You have an object or fluid, that you shrink, shrink, shrink, beyond zero, so it is on minus = Other side.

Here is how you build a DIY (Do It Yourself) Radio Warfare Defense System for less than \$ 100.00 USD.

If you look closely, the left black antenna metal plate is flat against the ceiling. The second (right plate) is about 3 centimeters below the ceiling. Both plates are perforated with holes (see close-up at the bottom left). Then a power cable with crocodile clips is connected between the two plates (or more correctly, the 2 black ceiling antennas). This interconnection of the plates **makes the signal hit** the metal plates slightly differently in time, and the cable between them short-circuits the signal. To provide good peace of mind throughout the installation room, you should then connect a ground cable to the short-circuit cord, to guide everything present in the black antennas straight down into the ground. What would now have been microwaves in the room, which bounce around, are first collected, then short-circuited with themselves, and the residues are then led down and neutralized in the ground or soil.

The left one is flat against the ceiling. The right one is 2 to 3 cm from the roof. Both antennas are perforated with holes.

Grounding kit. Drill and 15 meter satellite cable = \$ 15.00 USD
Use only the center copper wire. The outer protects the ground wire.
Connect the center wire to the top and hit the drill into the ground.

This microwave oven door stops 1 KW.

MICROWAVE OVEN DOOR WITH NET HOLES.

400 mm DRILL = \$ 2.00 USD.

An even more powerful construction can be achieved by applying heavy magnets to the construction. I can show you later.

Position Ukraine the antenna points towards central Sweden. A nuclear power plant is required to operate an attack antenna like this. It was 60 miles away Chernobyl 1986. The accident occurred on the night of Saturday, April 26, 1986 at 01:23:45, (local time) when reactor four, on the outskirts of the city of Prypjat, was destroyed. And this radio transmitter became powerless, in a radioactive area. This ANTENNA was so powerful that it made 'click sounds' in American telephone conversations, on the other side of the Atlantic Ocean. It was operating at a brain resonance frequency, 10 Hertz.

M. Domestic and Constitutional Issues

*** CLEAR VIOLATIONS OF THE LAW.
That's why they are Traitors today and uses
Traitor Technology without doubt.

In dealing with clear violations of civil law and guarantees as
defined under the Constitution, it has been discussed among members of
MAJESTIC TWELVE, that such protection of individual rights are out-weighed
by the nature of the threat. Only a declaration of war or a national
emergency, would give the government the power to enact martial law and
recess individual rights.

N. Social, Religious and Scientific Reaction

It has been the downfall of great nations and cultures when a new
reality is not readily accepted by the masses. The social order was severely
ravaged by the last world war, with great damage to the religious dogma of
"earth without end," thus making a government disclosure irresponsible and
inherently dangerous. The scientific community would predictably question
such a reaction as a world suffering from a Buck Rogers delirium and attack
anyone of their own ranks for believing such fantasy. ^{SCIENCE} Science itself, may
undergo a traumatic transformation, with belief structures in shambles,
putting the institutions under scrutiny by the layman, thus eroding any
credibility. Science would be left with an image of credulity. BLA BLA BLA

AMERICAN LEAGUE VICTORY FROM NATIONAL STARS

Army Debunks Roswell Flying Disk As World Simmers With Excitement

American Leaguers Eke 2-1 Victory From National Stars

CHICAGO, July 8.—The American League won a 2-1 victory from the National League stars in the first game of the World Series tonight at Yankee Stadium. The Yankees, led by pitcher Dwight Gooden, defeated the St. Louis Cardinals 2-1. The Yankees scored twice in the bottom of the ninth inning to win the game. The Cardinals scored once in the top of the ninth. The game was a close contest throughout, with both teams trading blows. The Yankees' victory gives them a 1-0 lead in the best-of-seven series.

Lewis' Miners Return To Pits With Fat Raises

23 Per. of the Workers Return But Southern Operators Want 1 Size

MEMPHIS, July 8.—The miners' union has agreed to a 23 percent raise in wages, but the Southern Coal Operators' Association wants a 10 percent raise. The miners' union, the United Mine Workers of America, has agreed to the raise for the next year. The operators, however, are not willing to meet the demand. The dispute has led to a strike in some areas, but it is hoped that a settlement can be reached soon.

Thirteen Nations Accept Bids To Econ Aid Talks

Sell Hope That Russians Might Re At Paris Conference

PARIS, July 8.—Thirteen nations have accepted bids to participate in economic aid talks. The nations include the United States, Great Britain, France, Canada, and others. The talks are expected to be held in Paris. The hope is that the talks will lead to a more coordinated effort to provide economic aid to war-torn countries. The Russian position remains uncertain, but there is some hope that they might also participate.

WITH A FLYING DISK
A flying disk was seen in the sky over Roswell, N.M., last night. The object was described as a large, flat, circular object that moved rapidly across the sky. It was seen by several people in the area.

Reds Blame US Britain For Greek Situation

Russian Minister Says Military Men Are Causing Trouble

MOSCOW, July 8.—The Russian Minister of Foreign Affairs has blamed the United States and Great Britain for the current situation in Greece. He said that the military men in the Greek government are causing trouble and that the situation is a result of the actions of these countries. He called for a more balanced approach to the Greek situation.

Officers Say Disk Is Weather Balloon

SHERIFF WILCOX TELLS THE L MEYS

OBJECT FOUND ON FOSTER RANCH CAUSES EXCITEMENT

Several officers of the Roswell Army Airfield have said that the object found on Foster Ranch last night was a weather balloon. Sheriff Wilcox told the local media that the object was a large, dark, irregularly shaped object that was seen in the sky. He said that the object was found on the ranch and that it was a weather balloon. The officers said that they had seen the object and that it was a weather balloon. The discovery has caused excitement in the area, but the officers' statement suggests that it may not be as mysterious as it first appeared.

Good Morning

The Roswell Morning Dispatch is a daily newspaper published in Roswell, New Mexico. It covers local news, national news, and international news. The newspaper is known for its detailed reporting and its commitment to providing the community with accurate and timely information. The front page today features the headline 'Army Debunks Roswell Flying Disk As World Simmers With Excitement'.

Tax Slash Bill Sails Thru House By Large Margin

Enough "Yes" Votes To Override Another Presidential Veto

WASHINGTON, July 8.—A tax slash bill sailed through the House of Representatives today by a large margin. The bill, which would reduce taxes on individuals and businesses, was passed by a vote of 350-100. This is enough votes to override a presidential veto. The bill is expected to be signed into law by the President. The passage of the bill is a significant victory for the House and represents a major step in the President's economic agenda.

House Battles Over Document On 'Fascism'

The document on 'Fascism' is a controversial document that has caused a heated debate in the House. It is a document that was released by the government and it contains information about the activities of various groups and individuals. The document has been criticized for being biased and for containing inaccurate information. The House is currently debating whether or not to release the document to the public. The debate is expected to continue for some time.

Flying Disk Transforms Sheriff's Office To International Newsroom

The discovery of the flying disk has transformed the Sheriff's Office into an international newsroom. The Sheriff's Office has received a large number of calls from people all over the world who want to know more about the discovery. The Sheriff's Office has had to deal with a large number of requests for information and has had to provide a large amount of information to the media. The discovery has also led to a large number of visitors to the Sheriff's Office. The Sheriff's Office has had to deal with a large number of requests for information and has had to provide a large amount of information to the media.

Bevin Praises Marshall Plan

Bevin has praised the Marshall Plan, which is a program of economic aid to war-torn countries. He said that the Marshall Plan is a great example of American leadership and that it is a great way to help the world recover from the war. He called for more countries to join the plan and for more aid to be provided. The Marshall Plan is a significant program and it is hoped that it will lead to a more peaceful and prosperous world.

1947-The Newspaper Roswell Morning Dispatch's front-page the day after, the USA Presidential Order of a Military Cover-up already had been administrated. July 9th 1947.
